Careers & Labor in the AI Era - A Builder's Response (11-Aug-2026)

- *the shift*
 - AI shrinks entry-level hiring while letting solo builders turn real profit; we define the problem with the latest data and offer a structural response
- *from tutoring to commercialization*
 - a year of agentic-coding tutoring proved demand; with AI Nexus, we connect builders to experts across verticals to reach revenue-generating products
- *introducing Sunbay*
 - AI builder studio led by Korean senior professionals; builders don't build alone
- *two tracks*
 - Builder Track (US incorp, App Store, accounting, infra, revenue share) and Trainee Track (juniors & students ship real products)
